

airscreen 1500

1" electronic air cleaner

BENEFITS:

CUTTING EDGE TECHNOLOGY
with NEW patented Electro-Fibre™ media

LOWEST PRESSURE DROP
on the comparable 1" filter market

NEW & IMPROVED
moisture-resistant electronics

HOW IT WORKS:

The Airscreen 1500 uses new patented Electro-Fibre™ technology developed by the research & development team at Cimatec Environmental Engineering. The new technology uses a process that combines electric polarization and ionization. This innovation gives the Airscreen 1500 an incredibly low pressure drop while maintaining high efficiencies.

POP-UP CORNERS MAKE MAINTENANCE A "SNAP" !
