ECOQUEST INTERNATIONAL PURCHASES RGF ENVIRONMENTAL'S RESIDENTIAL AND LIGHT COMMERCIAL DIVISION

DALLAS, TEXAS - AUGUST 19, 2004 – Michael Jackson, President/CEO of EcoQuest International, Inc. announced at the opening of their National Sales Meeting in Dallas Texas; that EcoQuest has purchased the Residential and Light Commercial Divisions of RGF Environmental Group. The purchase included 14 residential and light commercial products and intellectual property. In addition, EcoQuest purchased RGF's Intellectual Property relating to Radiant Catalytic Ionization™ or *RCI™* which is RGF's latest advanced oxidation technology designed specifically for consumer applications.

The companies also signed a long term Strategic Alliance Agreement, wherein RGF Environmental Group will provide EcoQuest with ongoing Research & Development as well as technical support and training in addition to the development of three (3) new products/intellectual property per year going forward.

Ron Fink, President/CEO of RGF Environmental Group, who has also been appointed to EcoQuest's Scientific Advisory Board, spoke at the convention giving an overview of RGF and the new products and technologies. Mr. Fink praised the alliance of these two companies, and stated "This alliance brings together two world class leading edge companies". RGF which has long been recognized as a leader in innovation and technology of water, food and air purification systems, is often described as a "Think Tank of Innovative Technology", and EcoQuest which has proven itself to be the undisputed World's Leader in bringing new and high technology products to the consumer.

RGF Environmental Group (RGF) known worldwide for their environmental systems, has maintained a steady flow of over 500 innovative technologies since 1985. *RGF* is dedicated to the design, engineering, manufacturing, sales, installation of technology and products to provide the purest air, water food.

RGF will continue to operate it's core business of R & D, manufacturing and distributing Industrial and Commercial systems out of it's West Palm Beach headquarters and plant.
